

How to get a summary of disk usage with du

The following command gives me a listing of the sizes of all the directories in the root directory /.

```
# du -chs /*
```

Here is the results of that command on one of my servers:

```
0      /bin
280M   /boot
16K    /dev
37M    /etc
79M    /home
0      /lib
0      /lib64
0      /media
35T    /mnt
2.8G   /opt
0      /proc
7.2M   /root
9.4M   /run
0      /sbin
0      /srv
0      /sys
324M   /tmp
2.1G   /usr
...
```
